Please note: This is only a rough guide only as each portrait is bespoke. An individual price will be given upon consultation. These prices do not include travel costs or frame prices and are based upon a portrait of one individual. Group and family portraits usually increase by 50% for each person included, for example a portrait of one person for £1000 would cost £1500 if an extra person were included and £2250 if of three people.

I can work with groups as well as individuals and will travel for sittings.

I usually require 3-5 sittings and upwards depending on the project. Each sitting will take 2-3 hours with breaks.

I work from life, but develop the paintings back in the studio, between sittings.

I can work from photographs in special circumstances.

I am currently not registered for VAT.
